

# HOW WE USE ENERGY

This picture shows how energy is used in homes. It is a pie chart. Each piece of pie shows a way energy is used.

**Directions:** Look at the chart. Then answer the questions below.

1. Which piece of pie is the biggest?  
(Hint: It takes energy to keep the house warm!) \_\_\_\_\_
2. Which is the second biggest piece of pie? (Hint: We want to see when it's dark. And we use lots of things that we plug in!) \_\_\_\_\_
3. How do you use energy at home? \_\_\_\_\_

## TIPS FOR SAVING ENERGY

We can help the planet by using less energy. Here are some tips to try!

- Turn off the TV and lights when done using them.
- Turn off the water while brushing your teeth.
- Close the refrigerator door quickly after using it.

What are some other ways your family can save energy at home?  
Write three actions you can take.
