1. Introduction and Objective
Con Edison (hereinafter referred to as “the applicant”) prepared a Public Participation Plan (PPP) to fulfill and comply with the requirements of New York State Department of Environmental Conservation (NYSDEC) Commissioner Policy 29, Environmental Justice and Permitting with respect to the renewal and modification of its State Pollution Discharge Elimination System (SPDES) permit for discharges at Pier 98. The NYSDEC has determined that the proposed action potentially impacts one or more Potential Environmental Justice Area (PEJA). See Figure 1.

The objective of this PPP Summary Report is to outline and describe the program of activities that the applicant implemented to actively seek and enhance public participation during the application review process, as approved by the NYSDEC on January 24, 2023, in support of application 2-6202-00032/00004 for the renewal of Permit NY0005134.
2. Project Description
Con Edison currently has a State Pollution Discharge Elimination System (SPDES) permit that allows the Company to discharge wastewater, pursuant to certain standards, from its 59th Street Steam Station and withdraw water from the Hudson River to use in its cooling apparatus serving the applicant’s 49th Street Substation.

The 59th Street Generating Station produces steam that Con Edison provides to its customers in Manhattan. Con Edison’s customers include residential, commercial and hospital accounts that use steam to heat their buildings in the winter and cool them in the summer. The production of steam has a byproduct of wastewater that Con Edison is permitted to discharge into the Hudson River under its SPDES permit at outfall 002 as noted in Figure 2. The permit contains limits for the pH of the discharge and total suspended solids found in the wastewater, and, pursuant to the permit, the discharge is tested monthly.

Additionally Con Edison uses river water as part of a cooling system for cables at its 49th Street Substation. The river water is used to cool water from the city’s water system that eventually cools the feeder lines at the 49th Street Station. After the feeders are cooled, the river water is returned to the river. This water does not come into contact with any process equipment and is, thus, referred to as non-contact cooling water. The permit contains a temperature limitation for the water returned to the river at outfall 003 as noted in Figure 2.

Con Edison submitted a renewal application for its SPDES permit (NY0005134) to NYSDEC, Bureau of Water Permits, 625 Broadway, Albany, NY 12233.

Con Edison’s permit renewal application includes two modifications to its 59th Street Steam system. One is an upgrade to the facility’s demineralization system that involves the addition of reverse osmosis, which removes minerals from the city water used to produce steam. The other modification is the addition of a new treatment process that neutralizes the discharged wastewater to assist with meeting permit limits. The renewal and these modifications allow Con Edison to continue safe and reliable operations at this site as a utility in Manhattan.
Figure 2. [Site Plan]
3. Stakeholders and Contact List
Per New York State Department of Environmental Conservation’s recommendations, a contact list of interested and affected parties was developed (Appendix A). The list includes stakeholders from the following categories: local government and elected officials; adjacent business owners, residents, and occupants; local civic, community, environmental and religious organizations; local news media; and the administrator/operator of any school or day care that lives, works and/or represents a neighborhood or community within a half-mile radius of the project area. As additional parties expressed interest, they were added to the list. The applicant communicated with community boards, local city agencies, community and recreational organizations, and environmental and business groups to help identify additional stakeholders beyond the internal lists used by the community affairs department. Councilmember Gale Brewer’s office assisted in identifying the leads for NYCHA tenant associations in the area. This list was used to communicate and disseminate information about the project with the affected community and stakeholders.

4. Public Outreach Activities
In order to inform the public about the current phase of the project and to address the applicability of Commissioner Policy-29, Environmental Justice and Permitting, the following outreach activities were planned and conducted:

1. Prepared and disseminated a fact sheet about the project;
2. Prepared and circulated a public meeting notice/invitation encouraging the affected community and stakeholders to attend an online public meeting;
3. Conducted an online public meeting for community stakeholders on February 2, 2023;
4. Created an online document repository page on the Con Edison website where all relevant documents are available:
4.1 Fact Sheet
As shown in Appendix D, the applicant emailed the fact sheets (Appendix C) to the entire list of stakeholders and contact list (Appendix A) on January 19th. The applicant sent out additional emailed on January 20th to additional stakeholders who were later added to the contact list. The fact sheet has also been available through the online repository via the following website: https://www.coned.com/en/community-affairs/community-updates/wastewater-elimination-permit

Since the project is in an area with a sizable Spanish speaking population, the public meeting notices and fact sheets were made available and disseminated in both English and Spanish.

A manager in the Regional and Community Affairs department of Con Edison has been designated as a liaison to the community for the project. That liaison, Alina Suriel, was available throughout the project for questions, comments and requests related to the permit renewal and could be contacted by phone at 212-460-6427 or by email suriela@coned.com.

4.2 Public Meeting Notice/Invitation
As shown in Appendix D, two weeks in advance of the public meeting, on January 19th and 20th, 2023, Con Edison emailed the public meeting notice/invitation (Appendix B) to the entire list of stakeholders and contact list (Appendix A). The public meeting notices (both English and Spanish) were also hand distributed by the community liaison throughout the immediate areas surrounding the steam generating plant, as shown in Appendix D. The applicant also published paid advertisements featuring the meeting invitation in the print edition of local newspapers serving stakeholders near the steam generating plant on the week of January 19th, 2023. The advertisements appeared in the New York Daily News, New York Post, El Diario NY, West Side Spirit, and The West Sider Chelsea Clinton News. Appendix D includes tear-sheets of the public meeting notices from each respective media outlet.

4.3 Public Meeting
Con Edison facilitated and presented a public informational tele/videoconference meeting on February 2nd, 2023, at 6:30PM. Kimberly Williams, Director of Con Edison’s Manhattan Regional and Community Affairs team opened the meeting and shared the meeting agenda. Frank Cuomo of Con Edison’s Steam Services department presented an overview of Con Edison’s Steam System, the uses of the 59th Street Steam Station, the need for the SPDES Permit, and the SPDES permit renewal process. Alina Suriel, a manager on the Manhattan Regional Affairs team who served as the community liaison, followed Cuomo to share contact information for herself and the NYSDEC and invite stakeholders to share feedback or testimony relevant to the permit application. Suriel then opened the meeting up for questions from the audience.

The applicant followed guidelines on using virtual platforms to host the public meeting. A total of 33 people attended the meeting, and we breakdown the Con Edison (23 attendees) vs. Public (10 attendees) attendance below. Please also see the recorded list of attendees in Appendix E.

Leading up-to and following the February 2, 2023, public meeting, several people commented that Microsoft Teams (MS Teams) virtual meeting platform is not appropriate and prefer to use
Zoom. Con Edison has strict cyber security policies, and we are asked to refrain from using Zoom. The company’s preferred platform is MS Teams. Since the applicant was hosting the meeting and required full admin rights, MS Teams was the only viable platform.

Taking all comments into consideration about the platform, though, we will include instructions for using MS Teams in the invitation to future virtual public meetings we host, and we will suggest attendees familiarize themselves with the platform in advance of the meeting. MS Teams functions were tested thoroughly for three days leading up to the public meeting. The use of the chat function was disabled to direct attention to the presentation and prevent interruptions. Instead, a Q&A (Question and Answer) MS Teams function was utilized. In future meetings, while the meeting is in session, the Q&A functions will be tested by inserting some useful contact information to ensure usability and encourage participants to copy and save the contact information straight from the Q&A text box.

To outline the public meeting agenda and explain MS Teams capabilities to participants, a Con Edison presenter mentioned the following in the beginning of the meeting. This messaging was also repeated before the question-and-answer portion of the meeting:

- We welcome the public’s participation,
- At the end of tonight’s presentation, guests will have an opportunity to share comments,
- Asked that all speakers identify themselves and any organization they may be affiliated with,
- Comments be limited to three minutes so everyone can have a chance to participate,
- Use the raise hand function on MS Teams to ask a question. The Q&A functionality will be enabled at that point.
- For those who have phoned/dialed in, you will need to Dial *5 to raise your hand, and Dial *6 to unmute.

**High Con Edison Employee Attendance:**
A commentator thought the public meeting attendance was padded with Con Edison employees. The public meeting included several speakers, and some other employees were there as alternates in case there were any technical complications. Additionally, several employees were interested in hearing the presentation because of its relation to their job at the company.

**Low Public Attendance:**
A commentator thought the public meeting attendance did not generate a lot of public participation. An opportunity to host this conversation in conjunction with an established entity like the community board may encourage more community participation. Additionally, since this is not a new permit and Con Edison has been occupying Pier 98 for many decades, the topic itself may not have attracted as many people.

At the conclusion of the meeting, Con Edison’s contact information was provided. Attendees were also informed of how they could submit formal comments to the DEC. No questions were raised by attendees during the meeting, but communication shared with the company afterwards raised questions around the choice of MS Teams (described above) as well as the marketing.
5. **Document Repository**
An online document repository has been established for the community to access and review information about the project. The online repository contains documents relating to the project and the SPDES permit application, such as public notices and fact sheets related to the plan, the draft SPDES permit, and the NYSDEC’s notice of intent to renew and modify the permit. Con Edison continues to maintain the online repository on its website.

6. Certification

"I hereby certify that the Consolidated Edison Company of New York, Inc. has complied with all requirements of the plan in accordance with DEC issued Commissioner Policy-29 Environmental Justice and Permitting (CP-29) to address environmental justice concerns and ensure community participation in the DEC environmental permit review process.

The Consolidated Edison Company of New York, Inc. has completed all activities pursuant to the plan. The Consolidated Edison Company of New York, Inc. understands that certifying false, incorrect, or inaccurate information is a violation of CP-29 and of the referenced permit."

APPENDIX B
Public Meeting Notice/Invitation (English and Spanish)

Pier 98 Meeting Announcement - February 2, 2023 (PDF)
Pier 98 Meeting Announcement (Spanish) - February 2, 2023 (PDF)
**YOU ARE INVITED**

Virtual Public Meeting  
February 2, 2023 at 6:30 PM  
Con Edison Pier 98 SPDES Permit Renewal

Con Edison has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for a State Pollutant Discharge Elimination System (SPDES) Permit Renewal and modification for Con Edison's operations at Pier 98. A Public Participation Plan has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29). The purpose of this meeting is to inform the public about the project and to involve the community during the NYSDEC SPDES permit application review process.

**Agenda:**
- Project Overview  
- Background  
- Scope of work  
- Project schedules  
- Community Impacts  
- Proposed Mitigation Measures  
- Questions and Answers

**Your Attendance is Important!**

Project personnel will be available to answer questions from the community. For additional information on the proposed project:

- Contact: Alina Suriel of Con Edison by phone at 212-460-6427 or by
email at suriela@coned.com

- Visit the repository at: www.coned.com/en/community-affairs/wastewater-elimination-permit

- Contact the project liaison to request reasonable accommodation for a disability or interpreter services in a language other than English, so that you can participate in the call and/or to request a translation of any of the event documents into a language other than English.
estar invitado

Reunión pública virtual
12 de enero de 2023, a las 6:30 p.m.
Renovación del permiso del SPDES para el muelle 98 de Con Edison

Con Edison ha presentado una solicitud al Departamento de Conservación Ambiental del Estado de Nueva York (NYSDEC, por sus siglas en inglés) para obtener la renovación y modificación del permiso del SPDES de NYSDEC para las operaciones de Con Edison en el muelle 98. Se ha desarrollado un plan de participación pública en conformidad con la Política 29 del Comisionado de NYSDEC, Justicia Ambiental y Permisos (CP-29). El fin de esta reunión es informar al público del proyecto e involucrar a la comunidad durante el proceso de revisión de la solicitud de permiso del SPDES de NYSDEC.

Para unirse en línea
Haga clic en el siguiente vínculo:
http://tiny.cc/Pier98PermitRenewal

Para unirse por teléfono
Marque el siguiente número:
+1 518-708-8084
Cuando se le solicite, ingrese la ID de la reunión:
547 330 358#

Programa:
- Descripción general del proyecto
- Antecedentes
- Alcance del trabajo
- Cronogramas del proyecto
- Impactos en la comunidad
- Medidas de mitigación propuestas
- Preguntas y respuestas

¡Su asistencia es importante!

El personal del proyecto estará disponible para responder preguntas de la comunidad. Para obtener información adicional sobre el proyecto propuesto:
Contacto: Alina Suriel de Con Edison por teléfono en el 212-460-6427 o por correo electrónico en suriela@coned.com

Comuníquese con el enlace del proyecto para solicitar adaptaciones razonables para personas con discapacidad o servicios de interpretación en un idioma que no sea inglés, de modo que pueda participar en la conferencia o para solicitar una traducción de cualquiera de los documentos del evento a un idioma que no sea inglés.
APPENDIX C
Fact Sheet
(English and Spanish)
Con Edison Pier 98 SPDES Permit Renewal Fact Sheet

- Project: Con Edison Pier 98 State Pollution Discharge Elimination System (SPDES) permit renewal
- Applicant: Con Edison
- Facility: Pier 98
- NYSDEC Application Number: 2-6202-00032/00004
- A Public Participation Plan (PPP) has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29)

What is the Proposed Project?

The Proposed Project will allow Con Edison to continue providing safe and reliable steam and electric service to customers. To implement the proposed project, Con Edison has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) to renew and modify its State Pollution Discharge Elimination System (“SPDES”) permit, which covers the discharge of wastewater and non-contact cooling water to the Hudson River. The purpose of this fact sheet is to inform the public about Con Edison’s proposed project and to involve the community during the NYSDEC permit application review process.

Why does Con Edison need to renew the permit?

Con Edison currently has a SPDES permit that covers discharges from the Company’s 59th Street Steam Station and its cooling apparatus serving its 49th Street Substation. The production of steam has a byproduct of wastewater that Con Edison discharges to the Hudson River pursuant to its SPDES permit, which has limits for pH and total suspended solids. Additionally, Con Edison uses river water as part of a cooling system for cables at its 49th Street Substation. After the cables are cooled, this water is returned to the river also under the SPDES permit, which has a temperature limit for the return water. NYSDEC is performing a full technical review of the SPDES permit as part of the renewal process.

How might the project affect the surrounding community?

No new construction is needed and no changes in current activities are expected. This renewal allows Con Edison to continue safe and reliable operations at this site as a utility in Manhattan.

How can I participate in the permit review process?

- Attend the upcoming virtual public meeting scheduled for February 2, 2023, at 6:30 PM to learn about the project, ask questions and/or express concerns about the project.
• Ask questions, express concerns, provide input or submit by comments in writing, by phone or email to the project contact person identified below.

Where can I get more information about the proposed project?

• Visit the online document repository at: www.coned.com/en/community-affairs/wastewater-elimination-permit to obtain application materials, fact documents, and information about the project.

• For information on the project, instructions on how to attend the upcoming virtual public meeting, or to find out about the status of the permit application and public comment period, contact Alina Suriel of Con Edison’s Manhattan Regional and Community Affairs team at:
  - 4 Irving Place New York, NY 10003
  - 212-460-6427
  - Suriela@coned.com

Who is responsible for reviewing the Permit Application?

☐ NYSDEC is responsible for reviewing and issuing the required permits.
  - NYS DEC Bureau of Water Permits
  - 625 Broadway, Albany, NY 12233
  - 518-402-8044
  - contact@dec.ny.gov
Hoja informativa de renovación del permiso del SPDES en muelle 98 de Con Edison

- **Proyecto:** Renovación del permiso del Sistema de Eliminación de Descargas Contaminantes del Estado (SPDES, por sus siglas en inglés) en el muelle 98 de Con Edison
- **Solicitante:** Con Edison
- **Instalación:** Muelle 98
- **Número de solicitud de NYSDEC:** 2-6202-00032/00004
- **Se ha desarrollado un Plan de Participación Pública (PPP, por sus siglas en inglés) en conformidad con la Política 29 del Comisionado de NYSDEC, Justicia Ambiental y Permisos (CP-29)

¿Cuál es el proyecto propuesto?

El proyecto propuesto permitirá que Con Edison siga prestando servicios de vapor y electricidad seguros y confiables a los clientes. Para implementar el proyecto propuesto, Con Edison presentó una solicitud al Departamento de Conservación Ambiental del Estado de Nueva York (NYSDEC, por sus siglas en inglés) para renovar y modificar su permiso del Sistema de Eliminación de Descargas Contaminantes del Estado (SPDES, por sus siglas en inglés), el que abarca la descarga de aguas residuales y agua de refrigeración sin contacto al río Hudson. El fin de esta hoja informativa es informar al público del proyecto propuesto por Con Edison e involucrar a la comunidad durante el proceso de revisión de la solicitud de permiso de NYSDEC.

¿Por qué Con Edison necesita renovar el permiso?

Con Edison cuenta actualmente con un permiso del SPDES que cubre las descargas de la estación de vapor de la calle 59 de la empresa y su aparato de refrigeración que presta servicios a la subestación de la calle 49. La producción de vapor tiene un subproducto de aguas residuales que Con Edison descarga al río Hudson en conformidad con su permiso del SPDES, el que tiene límites de pH y sólidos suspendidos totales. Además, Con Edison usa el agua del río como parte de un sistema de refrigeración de cables en su subestación de la calle 49. Luego que se refrigeran los cables, esta agua se devuelve al río también según el permiso del SPDES, que tiene un límite de temperatura para el agua de retorno. Como parte del proceso de renovación, NYSDEC realizará una revisión técnica completa del permiso del SPDES.

¿Cómo podría el proyecto afectar a la comunidad de los alrededores?

No se necesitan nuevas construcciones y no se esperan cambios en las actividades actuales. Esta renovación permite a Con Edison seguir en funcionamiento con operaciones seguras y confiables en este lugar como empresa de servicios básicos en Manhattan.
¿Cómo puedo participar en el proceso de revisión del permiso?

- Asista a la próxima reunión pública virtual programada para el 2 de febrero de 2023, a las 6:30 p.m. para obtener información sobre el proyecto, hacer preguntas o expresar inquietudes sobre el proyecto.

- Haga preguntas, exprese inquietudes, proporcione información o envíe comentarios por escrito, por teléfono o correo electrónico a la persona de contacto del proyecto que se indica a continuación.

¿Dónde puedo obtener más información sobre el proyecto propuesto?

- Para obtener información sobre el proyecto, instrucciones sobre cómo asistir a la próxima reunión pública virtual o para conocer el estado de la solicitud de permiso y el periodo de comentarios públicos, comuníquese con Alina Suriel del equipo de Asuntos Regionales y Comunitarios de Manhattan de Con Edison en:
  
  - 4 Irving Place New York, NY 10003
  - 212-460-6427
  - Surielaxconed.com

¿Quién es el responsable de revisar la solicitud de permiso?

- NYSDEC es la entidad responsable de revisar y emitir los permisos que se requieren.
  
  - NYS DEC Bureau of Water Permits
  - 625 Broadway, Albany, NY 12233
  - 518-402-8044
  - contact@dec.ny.gov

Con Edison has submitted an application to the New York State Department of Environmental Conservation (NYDEC) for a State Pollutant Discharge Elimination System (SPDES) Permit Renewal and modification for Con Edison’s operations at Pier 96. A Public Participation Plan has been developed in accordance with NYDEC Commissioner Policy 29, Environmental Justice and Permitting (EJ-29). The purpose of this meeting is to inform the public about the project and to involve the community during the NYDEC SPDES permit application review process.

**You Are Invited**
Virtual Public Meeting
February 2, 2023 at 6:30 PM
Con Edison Pier 96 SPDES Permit Renewal
Hello,

Thank you so much! [Name] much appreciate this introduction.

Andy, I was hosting a call at SCP to make sure that your team was aware of the following public meeting that we are holding on February 2nd. Please feel free to attend and let me know if you have any questions.

Thank you!

Alina Sorial
Corporate Affairs
New York Regional and Community Affairs Manager

Con Edison has submitted an application to the New York State Department of Environmental Conservation (NYDEC) for a State Pollutant Discharge Elimination System (SPDES) Permit Renewal and modifications for Con Edison’s operations at Pier 98.

Please refer to the following information to attend an upcoming public meeting on this topic and note the attached documents which include the meeting announcement and fact sheets in both English and Spanish.

Reunión Pública Virtual
Jueves 2 de febrero de 2023 a las 6:30 PM
Renovación del permiso SPDES Muelle 98 Con Edison

Con Edison ha presentado una solicitud al Departamento de Conservación Ambiental del Estado de Nueva York (NYDEC), por sus siglas en inglés, para la renovación y modificación de un permiso del sistema de Eliminación de Descarga de Contaminantes del Estado (SPDES), por sus siglas en inglés, de NYDEC para las operaciones en el Pier 98 de Con Edison. Un Plan de Participación Pública ha sido desarrollado de acuerdo con la Política 29 del Comisionado de NYDEC, Justicia Ambiental y Permisos (CP-29). El propósito de esta reunión es informar al público sobre el Proyecto y invitar a la comunidad durante el proceso de revisión de la solicitud de permiso SPDES de NYDEC.

Para Unirse por Internet:
se al siguiente enlace para ver la reunión por internet vía Microsoft Teams:
http://tiny.cc/Pier98PermitRenewal

Para Llamar Utilizando un Teléfono:
Llame al siguiente número:
+1 518-708-8084
Cuando se le solicite, ingrese la ID de la Reunión:
547 330 3584

Agenda:
- Panorama del Proyecto
- Impactos en la Comunidad
- Medidas de Mitigación Propuestas
- Preguntas y Respuestas
- Contingencias del Proyecto

¡Su Asistencia es Importante!
El personal del Proyecto estará disponible para responder preguntas de la comunidad.
Para más información sobre el Proyecto piénsese:
Contacto: Alina Suriel de Con Edison llamado al 212-404-427 o enviando un correo electrónico a asuriel@coned.com

Consulte con el miembro del Proyecto para solicitar adaptaciones razonables para una discapacidad o servicios de intérprete en algún idioma que no sea el inglés, para que pueda participar en la llamada y/o solicitar una traducción de cualquier de los documentos del evento a un idioma que no sea inglés.

YOU ARE INVITED
Virtual Public Meeting
Thursday, February 2, 2023 at 6:30 PM
Con Edison Pier 98 SPDES Permit Renewal

Con Edison has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for a
NYSDEC State Pollutant Discharge Elimination System (SPDES) Permit Renewal and modification for Con Edison's operations at
Pier 98. A Public Participation Plan has been developed in accordance with NYSDEC Commissioner Policy 20, Environmental
Justice and Permitting (CP-20). The purpose of this meeting is to inform the public about the project and to involve the
community during the NYSDEC SPDES permit application review process.

To Join Online:
Use the following link to watch the meeting online via Microsoft Teams:
http://tiny.cc/Pier98PermitRenewal

To Call-in Using a Phone:
Dial in using the following number:
+1 518-708-8081
When prompted, enter the Meeting ID:
547 430 3589

Agenda:
• Project Overview
• Background
• Scope of Work
• Project Schedules
• Community Impact
• Proposed Mitigation Measures
• Questions and Answers

Your Attendance is Important!
Project personnel will be available to answer questions from the community. For additional information on the proposed project:
Contact: Alina Suriel of Con Edison by phone at 212-405-4427 or by email at suriel@coned.com

Contact the project liaison to request reasonable accommodation for a disability or interpreter services in a language other than English,
so that you can participate in the call and/or to request a translation of any of the event documents into a language other than English.

Con Edison Pier 98 SPDES Permit Renewal Public Information Meeting

-February 2, 2023-

Facility: Con Ed-59th St Station Pier 98
NYSDEC Application Number: 2-6202-00032/00004
As Required by: NYSDEC Commissioner Policy 29, Environmental Justice and Permitting
Agenda

1. Introduction
2. Purpose
3. Background
4. Permitting Actions
5. Resources
6. Contact Information
7. Comments
**Purpose**

**Public Meeting**
- NYS DEC permit renewal process
- Application is still being reviewed

**Permit Objectives**
- Maintain current operations
- Further improve water quality

**Public Participation**
- Identify yourself and affiliated organization
- Please limit comments to 3-minutes
CON EDISON - PIER 98 OVERVIEW

59th Street Steam Station and 49th Street Electrical Substation

- Con Edison’s landmarked 59th Street Steam Station, built in 1904, uses natural gas to produce steam supplied to approximately 1,600 Manhattan buildings for various essential uses including heating, hot water, and air conditioning.

- The facility also has the capability to produce 20 MW of electricity to provide power to the local substations and neighborhoods increasing electric reliability during peak load events.

- Con Edison’s 49th Street Electrical Substation, in service since 1978, provides over 923 MW of electricity to nine networks on the West Side of Manhattan, serving 80K customers and critical facilities like the Lincoln Tunnel, PANYNJ Bus Terminal, St. Luke’s Hospital, Times Square, Rockefeller Center and major subway interconnections like Columbus Circle.
CON EDISON - PIER 98 OVERVIEW

**Critical Activities at Pier 98**

- Con Edison has operated Pier 98 since 1959 and is currently a tenant of the Hudson River Park Trust paying an annual rent of $1.3M.

- NYC’s Waterfront Revitalization Plan designates Pier 98 and adjacent lands under water as a **Priority Marine Activity Zone** specifically intended to support maritime infrastructure and water-dependent uses.

- Each barge delivery takes hundreds of trucks off the road every year.

PERMITTING ACTIONS

Con Edison Pier 98 SPDES Permit Renewal Timeline

- The current State Pollutant Discharge Elimination System (SPDES) permit NY-0005134 is valid under the State Administrative Procedure Act (SAPA)

- The permit allows for:
  - 59th Street Steam Station process water discharge at Outfall 002
  - Hudson River water withdrawal and discharge at Outfall 003

- Con Edison submitted a permit renewal in 2016, prior to the permit expiration date.
PERMITTING ACTIONS

Con Edison Pier 98 SPDES Permit Modification Requests

Since 2016 Con Edison has submitted two permit modification requests to further improve water quality:

1. In 2016 due to NYCDEP changing the source of the drinking water feeding the 59th Steam Station, Con Edison requested a permit modification to add Reverse Osmosis pre-treatment technology to the system to adjust to the new water characteristics and ensure purity.

2. In 2019 Con Edison requested a permit modification to reroute water coming out of the boilers that make steam to run it through an existing CO2 Neutralization System to ensure proper pH before discharge.

DEC is currently conducting a full technical review of all processes before issuing a permit.
FOR UPDATES AND MORE INFORMATION

Con Edison Pier 98 SPDES Permit Renewal

Tonight’s meeting is being held in advance of NYSDEC’s permitting decision.

APPENDIX F
Published Notice of Con Ed Pier 98 Draft Permit
March 21\textsuperscript{st}, 2023

Published Notice of Con Ed Pier 98 Draft Permit (azureedge.net)
New York State Department of Environmental Conservation
Notice of Complete Application/Intent to Renew and Modify Permit

DATE: March 21, 2023
APPLICANT: CONSOLIDATED EDISON COMPANY OF NEW YORK INC.
4 IRVING PL, NEW YORK, NY 10003-3502
FACILITY: CON ED - 59TH ST STATION, 850 12TH AVE, NEW YORK, NY 10019
APPLICATION ID: 2-6292-00032/00004
PERMIT(S) APPLIED FOR: 1 - Article 17 Titles 7 & 8 Industrial SPDES - Surface Discharge
PROJECT IS LOCATED: in NEW YORK COUNTY

PROJECT DESCRIPTION: The Department has prepared a draft permit and has made a tentative determination, subject to public comment or other information, to approve a renewal and modification to the State Pollutant Discharge Elimination System (SPDES) permit NY0005134.

The permitted facility is an industrial facility that produces steam, for customer use, using boilers that are fired by gas or oil. The facility also has a combustion turbine for generating electricity for peak loads. The facility uses a once-through cooling system to withdraw water from the Hudson River and uses a cooling water intake structure subject to the requirements of 6 NYCRR 704.5. Wastewater consists of process wastewater, stormwater, and non-contact cooling water discharged through outfalls to the Hudson River, a Class I water.

In addition to renewing the permit, a full technical review has been undertaken and updates to the following parameters are proposed: Toxics Class; primary outfall changed to 002 with closure of outfall 001; removal of special conditions Nos. 3, 4, 5, 6, and 9; addition of special condition No. 8 for sensitive test procedures; added biological monitoring requirements; added Mercury Minimization Plan requirements; added Submittal of Additional Submittals WET action levels, mercury, added Outfall 02F (reverse osmosis water treatment plant discharge); added influent and effluent monitoring for Total copper and Total lead; among other requirements detailed within the draft permit and fact sheet.

As a result of the EIR/ESR full technical review, a new five-year term is proposed.

The draft SPDES permit with fact sheet is available online at https://doc.ny.gov/files/projects/draftpermits. The draft permit files are contained within regional folders and named by the SPDES number contained in this notice.

Requests for a legislative (public statement) hearing must be sent in writing to the EIR contact person below by the comment deadline. The Department assesses such requests pursuant to 6 NYCRR Section 621.8. Refer to this application by the application number listed above and SPDES number NY0005134.

AVAILABILITY OF APPLICATION DOCUMENTS: Filed application documents, and Department draft permits wherever applicable, are available for inspection during normal business hours at the address of the contact person. To ensure timely service at the time of inspection, it is recommended that an appointment be made with the contact person.

STATE ENVIRONMENTAL QUALITY REVIEW (SEQR) DETERMINATION: Project is an Unlisted Action and will not have a significant impact on the environment. A Negative Declaration is on file. A coordinated review was not performed.

SEQR LEAD AGENCY: None Designated

STATE HISTORIC PRESERVATION ACT (SHPA) DETERMINATION: The proposed activity is not subject to review in accordance with SHPA. The application type is exempt and/or the project involves the continuation of an existing operational activity.

COASTAL MANAGEMENT: This project is located in a Coastal Management area and is subject to the Waterfront Revitalization and Coastal Resources Act.

DEC COMMISSIONER POLICY 29, ENVIRONMENTAL JUSTICE AND PERMITTING (CP-29): It has been determined that the proposed action is not subject to CP-29.

AVAILABILITY FOR PUBLIC COMMENT:
Comments on this project must be submitted in writing to the Contact Person no later than 04/28/2023 or 30 days after the publication date of this notice, whichever is later.

CONTACT PERSON:
JAMES J. ELDRIDGE
NYSDEC
625 BROADWAY
ALBANY, NY 12233
(518) 402-9158
Notification of this intent to modify is also being provided by the department in the
NYSDEC Environmental Notice Bulletin.

If a statement or request for hearing is not submitted by 04/28/2023, it is
anticipated that the permit will become effective on 06/1/2023. A copy of the final
renewed and modified permit will be mailed to you.

The final decision on permit modification will await consideration of any
statement you may provide or the conclusion of hearing proceedings.

In accordance with the approved Public Participation Plan for this application,
please place this notice and the enclosed documents on the on-line document
repository and distribute the notice to the contact list.

If you have any questions, please contact me using the contact information
above.

Sincerely,

Permit(s) Applied for: 1 - Article 17 Titles 7 & 8 Industrial SPDES - Surface Discharge

Project is located: in NEW YORK COUNTY

Project Description:
The Department has prepared a draft permit and has made a tentative determination, subject to public comment or other information, to approve a renewal and modification to the State Pollutant Discharge Elimination System (SPDES) permit NY0005134.

The permitted facility is an industrial facility that produces steam, for customer use, using boilers that are fired by gas or oil. The facility also has a combustion turbine for generating electricity for peak loads. The facility uses a once-through cooling system to withdraw water from the Hudson River and uses a cooling water intake structure subject to the requirements of 6 NYCRR 704.5. Wastewater consists of process wastewater, stormwater, and non-contact cooling water discharged through outfalls to the Hudson River, a Class I water.

In addition to renewing the permit, a full technical review has been undertaken and updates to the following parameters are proposed: TSSs Class; primary outfall changed to 002 with closure of outfall 001; removal of special conditions No. 3, 4, 5, 6, and 9; addition of special condition No. 8 for sensitive test procedures; added biological monitoring requirements; added Mercury Minimization Plan requirements; added Submittal of Additional Submittals; WET action levels, mercury, added Outfall 02F (reverse osmosis water treatment plant discharge); added influent and effluent monitoring for Total copper and Total lead; among other requirements detailed within the draft permit and fact sheet.

As a result of the EBPS full technical review, a new five-year term is proposed.

The draft SPDES permit with fact sheet is available online at https://dec.ny.gov/fac/projects/draftpermits. The draft permit files are contained within regional folders and named by the SPDES number contained in this notice.

Requests for a legislative (public statement) hearing must be sent in writing to the DEC contact person below by the comment deadline. The Department assesses such requests pursuant to 6 NYCRR Section 621.8. Refer to this application by the application number listed above and SPDES Number NY0005134.
Availability of Application Documents

Filed application documents, and Department draft permits where applicable, are available for inspection during normal business hours at the address of the contact person. To ensure timely service at the time of inspection, it is recommended that an appointment be made with the contact person.

State Environmental Quality Review (SEQR) Determination

Project is an Unlisted Action and will not have a significant impact on the environment. A Negative Declaration is on file. A coordinated review was not performed.

SEQR Lead Agency

None Designated

State Historic Preservation Act (SHPA) Determination

The proposed activity is not subject to review in accordance with SHPA. The application type is exempt and/or the project involves the continuation of an existing operational activity.

Coastal Management

This project is located in a Coastal Management area and is subject to the Waterfront Revitalization and Coastal Resources Act.

DEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29)

It has been determined that the proposed action is not subject to CP-29.

Availability For Public Comment

Comments on this project must be submitted in writing to the Contact person no later than 04/28/2023 or 30 days after the publication date of this notice, whichever is later.
