

Case Study: LED Lighting & Gas Equipment

Customer
Manna Presbyterian Church of New York

Contractor
Sky Lite, Inc.

Location
Queens, NY

Overview

Students and faculty at Manna Presbyterian Church’s school building in Queens are now working and learning in a more pleasant and well-lit space, thanks to more than \$10,000 in energy efficiency incentives from Con Edison.

Con Edison’s Small-Medium Business Energy Efficiency Program helped the church replace their light bulbs with efficient LED lighting, add pipe insulation to conserve gas, and install Wi-Fi smart thermostats to help maintain temperatures throughout the building.

Manna contributed about \$9,500 towards the \$20,000 project, which they earned back in energy savings in **under 11 months**. The church is now **saving about \$10,600 a year** on its energy bill.

Highlights

Total Project Cost: \$19,685	Con Edison Incentive: \$10,187	Customer Copay: \$9,498
Est. Annual Energy Savings (kWh): 51,904	Est. Annual Electric Bill Savings*: \$10,381	Customer Payback Period: <1 year
Est. Annual Energy Savings (Therms): 205	Est. Annual Gas Bill Savings** \$260	

*Cost savings are based on a \$0.20 per kWh rate. Your rate could be higher or lower.

**Savings are based on a \$1.27 per Therm rate. Your rate could be higher or lower.

Testimonials

“The incentives from Con Edison helped make our school building brighter and more comfortable. We are very happy with the results and the savings.”

—Kwan Ho Chung, Reverend
