

# Summer Energy Saving Tips

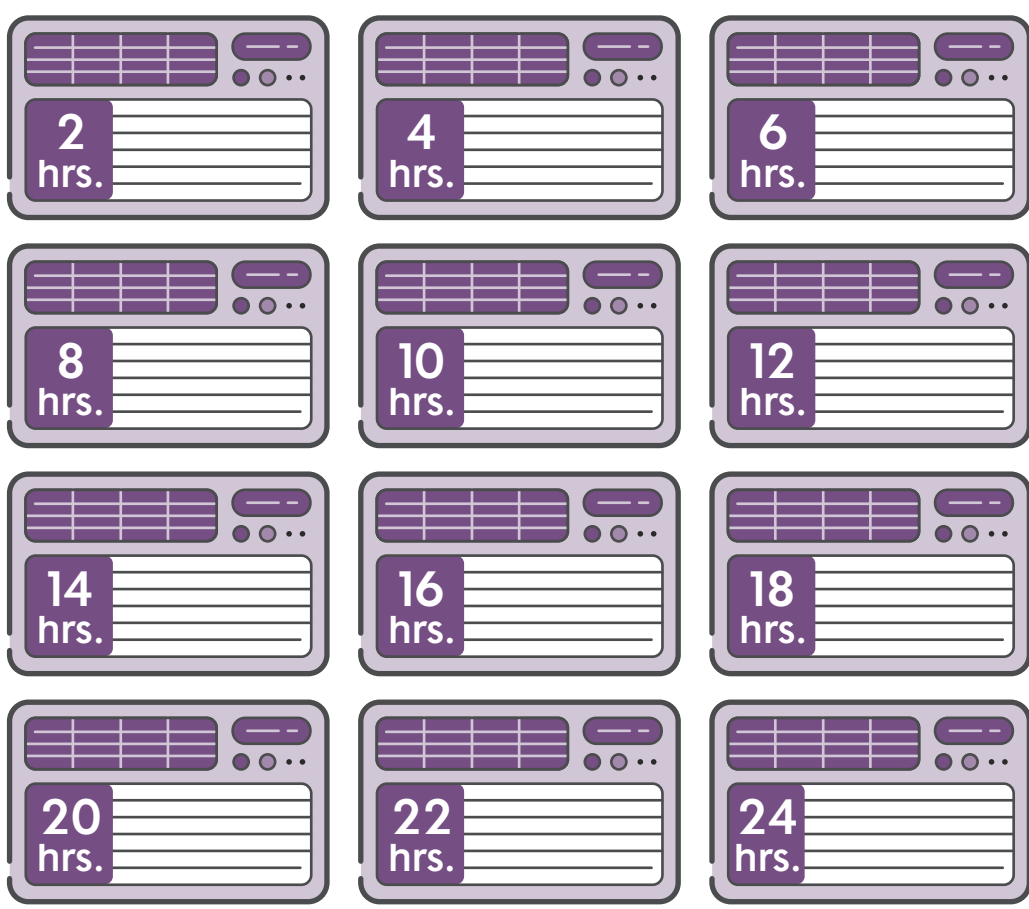

Beat the heat without breaking the bank!

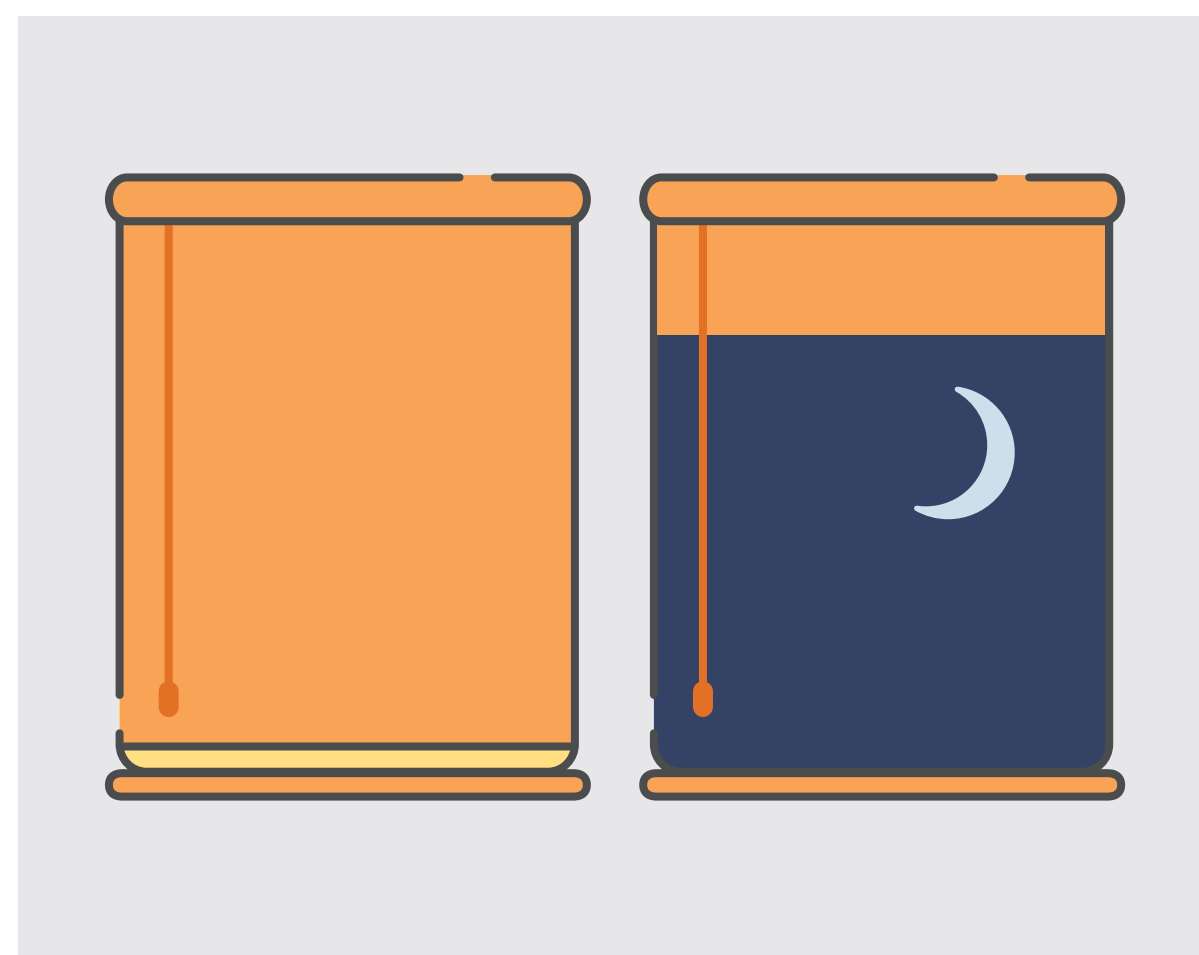

Set your A/C thermostat as high as comfortable when you're home, and use a smart thermostat to automatically adjust the temperature when you're not.

Not using it?  
Turn it off!

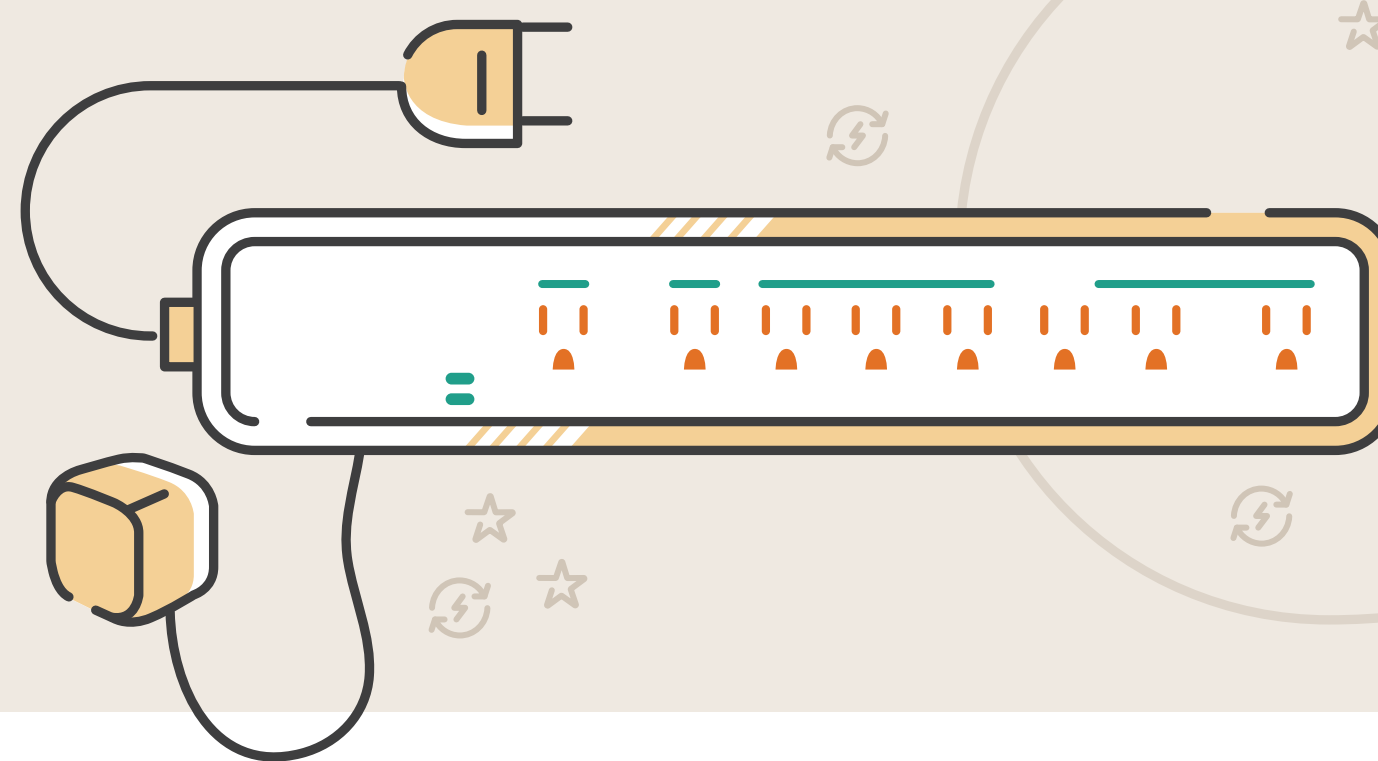

Avoid running your A/C longer than necessary by placing lamps and TVs away from smart thermostats.

Keep shades and blinds closed during the day, and open windows when it's cooler at night.

Not home? Use advanced power strips to prevent energy from being wasted.

Wash your clothes in cold water.

Change your filter on your water heater so it runs more efficiently,

Run the dryer and dishwasher at night on hot days.

Upgrading your energy equipment? Use a rebate to purchase high-efficiency models and save!
