

Case Study

LED Lighting

Overview:

The Albert Wisner Public Library has been a valuable resource for the residents of the Warwick School District since 1814. Their mission is simple: to be the bridge that connects their community to reading, lifelong learning, and personal growth. The library believes in providing equal access to a wide range of materials, cutting-edge technology, professional guidance, and exceptional service.

Over the years, they've worked hard to create a wonderful space for learning and enrichment, culminating in their state-of-the-art, energy-efficient 20,000 square-foot facility on McFarland Drive.

The library made the smart decision to work with O&R to upgrade all their existing fluorescent lighting to energy-efficient LED lighting. This was an easy choice for them, as they already had a geothermal heating and cooling system in place and were committed to being sustainable. By making this upgrade, the library took yet another step towards reducing their carbon footprint and saving energy. With these improvements, the library is well on its way to becoming a beacon of environmental responsibility in the community.

Highlights:

Total Project Cost:	\$44,087
O&R Incentive:.....	\$44,087*
Number of LED fixtures installed:.....	573
Est. Annual Energy Savings:	\$19,248

* Incentive for this project was part of our non-wires alternative program in the W. Warwick area. Non-wires alternative programs and investments allow us to maintain reliable service during peak periods of energy use without building costly new infrastructure and power lines, which is why we've offered additional energy-saving incentives to business customers there.

Join the Albert Wisner Library in becoming an energy-efficient business!

O&R offers the following incentives for your small or medium business:

Lighting & Controls

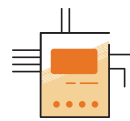

Heating, Cooling Ventilation (HVAC)

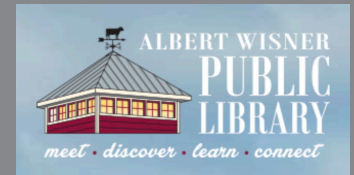

Refrigeration

Building Envelope

Energy Management Systems

Industry:
Non-profit organization

Location:
Warwick, NY

"I'm really proud that we did this. It was an easy decision to make. The Orange & Rockland people have been wonderful to work with. We've got great lighting and lower electric bills. What more do you want?"

Lisa Laico – Director, Albert Wisner Public Library
