

## Community Solar: Dual Bill Model

Under the dual bill model, you will receive your O&R electric bill with any community solar credit applied and a separate bill from the community solar project provider, charging you for the CDG subscription fee(s) you agreed to in your agreement with the provider.

Name: CUSTOMER NAME

Account number: 00000-00000

#### 1. Current Month Allocated CDG Credit

This is the latest allocation received from your community solar project, which is typically monthly.

#### 2. Prior Credit

Prior credits are any remaining carryover from previous credits received from your community solar project.

#### 3. Banked CDG Credit Allocated From Host

These are additional credits that are allocated to you from the Host Project.

#### 4. Total Credit Applied

This is the amount of available CDG credits (Current, Prior, and Banked Credits) that were applied to your electric charges for the month. Credits can be applied up to the total cost of your electric charges for the current billing period plus any related taxes.

#### 5. Remaining CDG Credit

These credits will carryover as the Prior Credit and will be available to apply to your next month's electric charges.
